SKILLS

- Computer Programming - Strong programming skills particularly in C++, developed through two years of college-level coursework. I have created and implemented various projects, including those focused on time management, payroll, budgeting, goal setting, habit building and even a video-game selection service. These experiences have equipped me with practical coding skills and the ability to develop efficient and effective software solutions.
- Problem Solving - I possess strong problem-solving skills, honed through diverse experiences in programming, construction, and community service. My ability to effectively identify, analyze, and resolve challenges is demonstrated by my successful track record in various roles.
- Leadership - My leadership skills are characterized by my ability to effectively manage teams, communicate clearly, and achieve project goals, all while maintaining high standards of quality and professionalism in diverse settings.
- Communication - I communicate effectively with a wide range of people, sharing ideas and understanding concerns. I excel in maintaining customer relationships and have a broad network of associates across various fields. This is shown through my success as a business owner being able to find and maintain new clients and projects frequently.

WORK EXPERIENCE

Web Developer • Code With Mosh

(Summer 2024)

- Designed and created different website applications, including a video game selection service using React, Typescript, Chakra UI, and deploying using Vercel.
